OUR MANDATE

International Humanitarian Hope Society has a mandate to help orphanages and children's homes in different parts of the world. We provide opportunities for volunteers to come along and help with projects abroad. This has proven to be an unforgettable experience of giving love and help to some desperate situations. Through your donation or help with fund raising, we are able to accomplish much.

INTERNATIONAL Humanitarian Hope Society

News from the Desk of the President of International Humanitarian Hope Society

2014 was a very exciting year for our organization. We accomplished so many tasks and look forward to see how we can continue to make a difference in the lives of orphans in various countries around the world in 2015.

March - 2014

We were honored to "cut the ribbon" at the completion of the Medical Clinic in the slums of Nairobi, Kenya. We are in the process of equipping this facility and when we arrive in March 2015, the clinic will be fully operational. We are in the process of equipping the clinic. We will be in Africa March 2015 to visit the orphanage, grade school and the clinic.

August - 2014

We took a group of volunteers to Cambodia and Thailand. What an exciting trip! After 20 days together we felt like family. We served in the Center of Peace orphanage in Phnom Penh, Cambodia for 7 days, teaching and working hands on with the children. There were some exciting events that we took part in with the children. These included a swimming party, fried chicken dinner and shopping for new shoes for all the children. Our team had a wonderful experience working with the children. Half of the children are teens and they all will go on to secondary education after graduating from high school. We are very impressed with the high standard of educational influence at this home. We are sponsoring one young man from this home as he is in university, studying to be a lawyer. Bophal Yos has done such a tremendous work in raising the children and encouraging them towards further education. She is such a wonderful young woman, full of love and highly respected by all the children, both young and old alike. She is mom to them all.

From Cambodia we flew to northern Thailand to another wonderful children's home. Give Kids Hope is under the directorship of Stephen and Sammy Darby. This is a wonderful, lively home with 22 young girls and presently they are constructing a second home to house another 22 girls. Expansion is costly but Stephen and Sammy have ventured out in faith and as the construction goes up, their needs have been supplied. We will continue to work towards completion of this home. Our team worked with the children after they came from school and we enjoyed various interactions together with both children and staff. Stephen was so kind to take us on several excursions including the Golden Triangle and an exciting elephant ride. Our team had the thrill of a lifetime! The trip was very fulfilling and we accomplished a lot in a short period of time. Big thanks to all the volunteers who worked tirelessly to accomplish so much during our time there.

October - 2014

Cebu, Philippines

Thank you for hearing my heart and supporting IHHS in so many of these endeavors. Our desire is to bring love and care to the children who have "no voice" in our world. Your support has made a BIG difference... a world away. We can't do everything, but we can do something to change the world, one heart at a time...one child at a time.

Sincerely,

Evelyn Picklyk
President/Founder

IHHS ventured out to do something a little different. We had our first women's conference in a foreign land. Our aim was to assist in educating women in other countries to rise up and be effective mothers, grandmothers, aunts, sisters and also mentors. In many countries we visit, we see that a lot of teaching is needed to lift up the mentality of women so they will have confidence and protect their children. And also to be confident entrepreneurs in their underprivileged country. Education is lacking and therefore women have not been valued.

Our first conference was held at the Marriott Hotel in Cebu, Philippines. Since IHHS is not known in this city, we were apprehensive as to how this conference would go but it was "over the top" in attendance and enthusiasm. Over 300 ladies registered and we raised funds to provide meals and host this conference. They are asking us to come back next year (2015) and we plan to do so. Since then, we have been asked to come to Vietnam and do the same conference. Women really need a lot of encouragement and support so that they can rise up and raise their children and feel valued. We also visited the Cure Foundation in the mountains of Cebu. Children are being rescued from sex trafficking in the city and taken to these homes being built in the mountains where the children can be rehabilitated and educated. Our project here will be to complete one home, for a cost of \$22,000. We have raised \$4,500 thus far and plan to complete this project in the coming months.

After the Philippines we flew to Sanya, China to visit the Bright Connection orphanage. This is an orphanage of over 40 physically and mentally challenged children. We were so happy to see the children progressing so well. Those who could hardly walk were making major advancements in their progress. What a joy to see the changes and also to see how happy the children and staff were to see us. This home requires 24 hour care, 7 days a week and the demands on the staff are constant.

After Sanya, China one of the directors and myself flew to Ho Chi Minh City, Vietnam to see the orphanage we are supporting there under the directorship of Sang Dinh. The children are happy and excited about getting into post secondary education to become nurses and to begin professional careers.

We met with the leader of another orphanage that is located in the rural area of Ho Chi Minh city. It was quite a distance to travel to visit the home but we were able to "catch up" with the orphanage leader and were informed of their needs. We purchased a cow for this home so the children would have milk and now they also have a calf. So wonderful to see the children receiving good food.

We stopped in Shanghai and travelled to the countryside to visit another physically challenged orphanage. It was interesting to see different homes and how they operate.

We leave shortly for Nairobi, Kenya to visit the orphanage and medical clinic. Our work continues and we cherish your ongoing support. Without your interest and support, we could not accomplish our projects in a timely manner.

Thank you for considering IHHS for your choice for Charitable Donations this year.
